Stud Welding Products  
9459 Washburn Rd.  
Downey, CA 90242

The following is the information on our scrap content I took from the communications we received from our supplier Charter Steel Company. I have included those letters for you to examine.

The raw material we purchase from Charter Steel Company consists of 85%-90% scrap and 10%-15% virgin iron units. The scrap is supplied by local scrap dealers from the Wisconsin and Ohio areas and consists of 15% post consumer and 85% post industrial material.

Thank you,  
Eric Rupnow
