

STUD WELDING PRODUCTS, INC.

HEAVY DUTY STUD GUN

Model: TWE-17000

FEATURES

- The TWE17000 has been designed to fit comfortably for all hands, including when wearing a work glove. The neck of the handle has been tapered so that, when grasped, the trigger can be accessed easily without strain. The handle length allows for better balance of the stud gun and keeps the welding cable and connector away from the hand minimizing operator fatigue.
- The TWE17000 can be ordered to operate with any type of stud welding equipment. Simply specify the make and model of your equipment and we will provide you with a stud gun connection compatible with your unit regardless of manufacturer.
- TWE-17000 is designed to flawlessly weld studs in diameters ranging from 1/8" thru 1". The proven new designed of the TWE-1700 is ready to handle any application including any through deck application.

FEATURES	TWE-17000
SIZE	8-1/2" long from the weld cable to the back cap and approximately 7" from the top of the stud gun to the bottom of the handle.
WEIGHT	The overall weight of the stud gun with 8.5' of 4/0 weld cable and 8' of control cable, connectors, legs and foot piece is approximately 15 lbs.
